Hi Joe,

I hope all is well and you are enjoying a nice start to fall, despite the strange times we are still in.

With respect for your PM expertise and role at the EPA, I wanted to gain insight as to the remedial construction at the Ringwood Mines site here in NJ.

How is this being bid out and is it possible to get onto the bidders list?

We are a heavy civil – environmental union contractor in NJ that would have interest in pursuing such work with your team.

Please let me know if you might have time to connect or provide such information.

Thank you for your time. Keep healthy!

Best regards,

Frank
